Education

The University of Iowa Iowa City, IA Master of Science (M.S), <i>Electrical and Computer Engineering</i>	Aug 2022-May 2024
The University of Iowa Iowa City, IA Bachelor of Science in Engineering (B.S.E), <i>Computer Science and Engineering</i>	Aug 2019-May 2023

Technical Experience

Intel Corporation Durham, NC <i>Global Alliances / Inside Sales Program Manager (Sales and Marketing Rotational Program)</i>	Apr 2024 – Present
- Drive technical enablement for Lenovo’s Inside Sales organization, leading platform trainings, competitive analysis, and AI capability positioning to accelerate adoption of Intel’s Commercial Client solutions. - Manage execution of a multi-billion dollar MOU between Intel and Lenovo, aligning stakeholders across business, technical, and marketing teams on AI roadmap milestones, product commitments, and sales targets.	
Intel Corporation Chandler, AZ <i>AI Product Manager (Sales and Marketing Rotational Program)</i>	Aug 2024 – Apr 2024
- Developed and deployed AI-driven analytics tools across sales and marketing functions, reducing manual workflows by over 70% and accelerating data-driven decision making. - Collaborated with GTM and engineering teams to operationalize LLMs for document retrieval and partner intelligence, building scalable internal tools with real user impact.	
University of Iowa Iowa City, IA <i>Graduate Research Assistant</i>	Aug 2023 – Jul 2024
- Designed and deployed the AudioGene Translational Dashboard (AGTD), integrating machine learning and data visualization to improve genetic diagnostics for hearing loss patients. - Addressed real-world challenges of class imbalance, data sparsity, and clinician usability—laying groundwork for production-grade AI deployment in healthcare.	
AMD Fort Collins, CO <i>Software Engineer Intern</i>	May 2023 – Aug 2023
- Led the consolidation of three distinct applications into a unified, intuitive platform, increasing team efficiency by 60%. - Created robust debugging tools and collaborated cross-functionally to streamline chip development processes across multiple business units.	
John Deere Moline, IL <i>Software Engineer Intern</i>	May 2022 – Aug 2022
Enhanced Kubernetes security infrastructure by implementing advanced policies, significantly reducing vulnerabilities and improving operational efficiency by 50% through optimized Rego integrations.	

Leadership Experience

UIowa Hyperloop Club Iowa City, IA <i>Executive Board/Systems Lead</i>	Aug 2020 – Dec 2022
Directed a 15-member team in the SpaceX Hyperloop challenge, securing \$5,000 funding and demonstrating strong leadership and project management.	

Entrepreneurial Experience

Omnilense Iowa City, IA <i>Co-Founder & CTO</i>	Jul 2022 – Jun 2023
- Led engineering for innovative facial-recognition glasses linked to a social media platform. - Secured \$15,300 in funding through pitches and grants, effectively demonstrating entrepreneurial leadership.	

Skills

Networking & Infrastructure: Kubernetes, Docker, Virtualization, CI/CD Pipelines, RESTful APIs Programming & Automation: Python, Java, JavaScript, SQL, Git, Scripting (Bash, Rego), Automation Workflows AI & Data Systems: Machine Learning, OpenAI GPT, NLP, LLM Tools, Data Pipelines, Visualization Web & System Development: React, Node.js, Express.js, Firebase, MongoDB, MySQL Sales Engineering & Strategy: Solution Storytelling, Technical Enablement, Competitive Positioning, GTM Alignment Soft Skills: Cross-Functional Communication, Agile & Scrum, Customer Discovery, Technical Writing, Public Speaking
